Jaja- Yeah, it seems like there will be a storm.

Pingping- Guess so

Jaja- I'm going inside. I don't wanna catch a cold.

Pingping- coming in.

Poom- I'll stay here.

Inging- Are there any people inside?

Poom Yes, yes, there are. LOOK *pointing towards the boat*

One of the Rohingya Refugees is standing and waving from side to side

Noey - Have you tell the chief?

Poom shakes his head

Noey turns to pingping

Noey- Go tell the chief!!!

Inging grabs out her binocular

Poom- Let me see *turn around and grab Ingingi's binocular* What do you guys think? Who are they?

They look like they need help.

Phatchy- please help us. I don't want to die.

Mint- I want your help. I have been sick lately and I need some medicine.

Everyone shouts Help Us

Mei- Okay. Calm down everyone. First, tell me your story.

Torfon- We are the Rohingya People. We live in Arakan, western of Rakine State. Since we are Muslim, the Myanmar government has been refusing to recognise us as one of the ethnics groups of the country and considered us as 'stateless entities' even though we have been living in Myanmar for centuries.

phatchieeeee- We are lack of legal protection and employment opportunities. We are treated badly from the Buddhists. In 2012, Rohingya people are accused of raping and killing Buddhist women. Our homes were burned down, people were killed, ten of thousands people were displaced and had to live in refugee camps. Conflict intensifies, hatred heighten. It was a very strained and stressful time that we decided to flee. So please, help us.

Noey -Chief, we have to help them.

Mei - We really can't let you go in or else we would be in trouble

Fon- But I feel pity for them.. See, there's also a child.

United Nation Meeting

Wern/Ploy/Pin/Noey L./Keen/Earth

เรียกทุกคนมาคุย such as P.M. Thailand, Myanmar, Malaysia, UNHCR, UNICEF

Agenda today:

- Security and human rights implications for ASEAN and Beyond
- Malaysia calls on ASEAN to review for help in Myanmar over Rohingya crisis

Wern- Since April 2015, The Rohingya migration has been a concern for Southeast Asia countries. This crisis is a complex mix resulting ethnic cleansing and sectarian violence inside Myanmar, illegal and irregular movement of people in Southeast Asia which lack of coordination in human rights issues of this magnitudes within the Association of Southeast Asian Nations members states that we try to approach towards social and democratic of human rights in this region.

Here, today, the house is welcoming the delegate from UNHCR, UNICEF, Malaysia, Myanmar, and Thailand to discuss the topic. The chair may now yield the floor to the delegate from UNHCR. Next, give the floor to the UNICEF. Now, give the floor to the delegates of Myanmar. let move on to the delegates of Thailand. Lastly, to the delegates of Malaysia.

- There any motion rise at this time.

.... If there is a this disagreement ... “To what point ...the delegates of UNHCR, UNICEF, P.M. (Thailand, Malaysia, Myanmar).. rise.” Do the delegate of Myanmar answer your question?

UNHCR is honored to be here, defending the right of our human friends. It is needed to address and assure that these people have the same equal right as others, including the freedom of movement and also the work opportunity. Recalling the fact that people would love to be nature and growing in the place with respect and love. The UNHCR believes that with the active involvement of the membership, the ASEAN can together solve this regional problem. The UNHCR strongly condemn Republic of the Union of Myanmar, for pushing people out regardless of their humaneness. The UNHCR urges the global community to tolerate the different of the people. The delegate may now yield the floor to UNICEF, in order to address about the children of Rohingyas.

Thank you for joining us today at this event. UNICEF is honored to be here. It is said that a nation's greatness can be judged by the way it treats its children. Nowadays, children worldwide are suffered from abuse everyday. Not much people aware of them. They lost their parents from the immigration, they die from no food, they die from war between countries. Us, the UNICEF would like to defend for children's rights. The materials will be used to help provide improved play and recreation opportunities for Rohingya children and other children staying at these shelters. Some of the children have been injured by events in Myanmar, the long sea journey to Thailand or being separated from family members, and giving them opportunities to play will help relieve some of their stress and fear. UNICEF is confirmed to stay by children's rights. The delegate may now yield the floor to the chair.

Myanmar- Rohingya has been a trouble for us for a long time. Firstly, Rakhine ain't their land. Our laws consider the nationality by who living by the year we lost to England for the third time, therefore, Rohingya has no right to be in Myanmar because they came after the war. Secondly, they cause a problem

of population to Myanmar, the not quality population. In Rakhine there are 3 million people and 1.5 million people are Rohingya and the rate of population growth are unstoppable. We have to manage those people. They are the mess to us. Especially, they are Muslim.\ and we are buddhism. Burmese are very strict with the religion and we honest to our religion. It is a big diversity of us. Moreover, Rohingya prefers to be in the countries where are Muslim. We see that it is a better opportunity for both us and them to leave peacefully. They leave to Muslim countries Malaysia, Brunei, or south Thailand. Leave to where the countries which ready to accept them.

Thai PM:

สำหรับประเทศไทย ทางเราไม่เห็นด้วยกับการที่รัฐบาลพม่าเมินเจยตอกกลุ่มคนโรฮิงญา

และเราขอประณามกับการกระทำของรัฐบาลพม่า รัฐบาลพม่าควรแสดงความรับผิดชอบมากกว่านี้/

รัฐบาลพม่าควรนำเสนอแนวคิดให้ประชาชนคนพม่ายอมรับความหลากหลายทางเชื้อชาติและชาติพันธุ์
นี่ถือเป็นสิ่งที่สำคัญมาก

เพราะหากคนพม่ายังไม่ยอมรับประชาชนคนของตนเองที่ตั้งรกรากมาเป็นร้อยๆปีแล้ว ใครจะมายอมรับ/

เราอยากให้ทางพม่าคิดเรื่องนี้ดูให้ดี หากทุกคนยอมรับในความแตกต่างของกันและกัน โลกนี้ก็คงจะไม่เป็นแบบนี้
ทุกคนคงมีที่อยู่

และแน่นอนเราคงไม่สามารถนำคนพม่าเข้ามาในแผ่นดินไทยได้/

แต่เราก็ได้ช่วยเหลือเรื่องอาหาร น้ำ น้ำมันเชื้อเพลิง เรือยนต์
และสิ่งอำนวยความสะดวกต่างๆและยาไปเป็นที่เรียบร้อยแล้ว

เราได้ช่วยเหลือเพื่อนมนุษย์ตามหลักมนุษยธรรมแล้ว/

นอกจากนั้นทางเรายังจัดให้กองทัพเรือเป็นหน่วยงานหลักในการสกัดกั้นทางทะเล

กองทัพเรือได้จัดเรือและอากาศยานลาดตระเวนเพื่อหาชาวบริเวณน่านน้ำ โดยเน้นการสกัดกั้นที่
